HARMONY URN COLLECTION

The HolyVerre Harmony collection was created with a focus on harmony of form, calm aesthetics, and the timeless beauty of porcelain. Each urn in this exclusive collection is crafted from the highest-quality porcelain, whose nobility, subtlety, and delicacy emphasize the elegant character of the entire line.

The inspiration behind the Harmony collection is balance, silence, and gentleness—values that accompany moments of reflection and remembrance. Harmonious proportions, clean lines, and refined details create a form that combines minimalist elegance with exceptional craftsmanship. The gilded elements are made of 24-karat gold.

Each model in the Harmony collection has been designed to become a symbol of peace and dignity. The delicate texture of the porcelain, meticulous finishing, and timeless aesthetics make the urns in this collection stand out with discreet luxury and remarkable elegance.

The HolyVerre Harmony collection was born out of respect for memory—expressing beauty that transcends time.

ALTERA

HolyVerre Altera is a porcelain urn with a distinctive, subtly sculpted surface that beautifully reflects light and gives the form depth. A golden detail gently accentuates its character, adding warmth and elegance. The whole creates a calm, harmonious presence. Altera symbolizes change and transition—in a gentle way, full of quietness and respect.

ETERNA

HolyVerre Eterna is a porcelain urn in which light arranges itself in the rhythm of quiet endurance. Its sculpted, multidimensional surface gently diffuses reflections, creating the impression of a constant, silent presence. A golden ring encircles the form like a symbol of infinity—a subtle sign of what does not fade, but endures beyond time. Set against the pure white of porcelain, it lends the whole a sense of warmth and timeless dignity. Eterna is an expression of memory that does not extinguish, but remains—calm and unchanging.

ESSENTIA

HolyVerre Essentia is a porcelain urn in which form has been reduced to what is most pure and essential. Its harmonious silhouette and perfectly balanced proportions create a sense of calm and completeness. A subtle golden ring defines a delicate boundary—a moment of transition that does not divide, but connects what is visible with what remains beyond form. The noble whiteness of the porcelain carries light and stillness. Essentia is an expression of presence in its purest form.

THE PHILOSOPHY OF HOLYVERRE

At HolyVerre, we believe that beauty can express what is most profound and essential.
That is why every design is created with harmony, serenity, and timeless elegance in mind.

Our aim is to create forms that, in a subtle and refined way, honor and preserve memory—
with dignity, calm, and an aesthetic that endures beyond the passage of time.
